

EVACUEES who attended HIGH LITTLETON SCHOOL

It is doubtful whether a full list exists of Evacuees, who were sent to High Littleton and Hallatrow during World War II. However, it is possible to extract from the Admission Register of High Littleton School details of the 118 Evacuees who entered the school, as the head teacher helpfully identified those concerned with * or E. As well as Evacuees sent by local authorities there were also "Private Evacuees". On the instructions of the Chief Education Officer these were to be treated as "Migrants" and for statistical purposes were to be dealt with as local children. One could hazard a good guess as to who most of these Private Evacuees were but the records do not provide confirmation. Of course, there would have been many more who did not attend the school, of whom no record has been found, including large groups like Monteagle School, which evacuated with its own teachers and set up school in the Church Hall (Church House) and also LCC groups, who were taught separately.

The list below includes only those pupils of High Littleton School positively identified as Evacuees. The information for each pupil is shown in the following format: **Name in Full**, (Date of Birth, Name of Parent or Guardian), Home address (Last School, if any), Address in High Littleton, Date entered School, Last attendance, Cause of leaving. The children have been listed in the order in which they appear in the Register - i.e. chronological order. Four of these children had attended High Littleton School on a previous occasion before evacuation. Many children only remained in High Littleton for a short time before returning to their homes. Some of these were evacuated again months later. The list is repeated in alphabetical order at the end.
