

HIGH LITTLETON BAPTISMS 1599-1948 & INDEX

*The first Parish Register or Registers for High Littleton, covering the period up to 1653, were probably destroyed or hidden and never recovered, during the Civil War. Theoretically, the deficiency could be made up by reference to the Bishop's Transcripts, which were annual copies of the Register, sent to the Bishop's Registry in Wells. However, during World War 2, these were transferred for safe keeping to Exeter, where unfortunately they were largely destroyed by bombing. From 1599 until 1653 Bishop's Transcripts (B/Ts) exist for only 13 years.*

NEW REGISTER

The earliest surviving Register dates from 1653 and was started by a Civil Registrar appointed during the Commonwealth. From 1653 to 1661 the Register is poorly written, damaged and several pages have faded so badly that the entries are now illegible. Being a Civil Register, entries relating to Quakers were included until 1661, when it became the Parish Register. In the 1930's, Rev. Richard Grosvenor BARTELOT, F.S.A. transcribed into a note book what he could read of the Register at that time. Further deterioration of the Register over the ensuing 50 years has rendered a few of the early entries recorded by BARTELOT, completely unreadable today, even with the aid of ultra violet light equipment. Use has therefore been made of BARTELOT's notebook to add the odd name or date to this transcript, to make it slightly less deficient than it would otherwise be.

1653 and 1654 - the first one or two entries are completely unreadable.

*The Register has been cross-checked with Bishop's Transcripts, which survive for the years 1662, 1666 to 1669 and 1679.*

*The Register has not been properly maintained from here on and only one Bishop's Transcript (1685) exists for the remainder of the period covered by the Register. Over the next fifty years, births and baptisms for some of the more important families have been entered in the Register in batches, years after the event. In some instances events have been duplicated in this Register and also recorded again in the new Register. In this transcript duplicated entries have been marked with an asterix.*

## HIGH LITTLETON BAPTISMS 1599-1948 &amp; INDEX

## INDEX of BAPTISMS 1599-1948

It was considered that this index was more useful having the baptisms in chronological order by surname, rather than alphabetically by christian name. It was also considered desirable to show parents' names and birth dates. The spelling of surnames has been standardised for indexing purposes, but the transcription shows the actual spelling. Some surnames have evolved over the years and the more modern form appears in this index. This applies particularly to the names ATTWOOD/WOOD, BURRIDGE/BOWDITCH, DRURY/DURY, ELMS/NELMES, STICKLER/STRICKLAND/STICKLAND, VATER/VEATER, WHITEHEAD/WHITING.

For the purposes of this index only, the year of baptism prior to 1752 has been shown in "new style" as if the year began on 1st January rather than 25th March.

\* before the year indicates that an event is listed in one of the clerk's "round-ups" as well as appearing in it's correct place in the Register. In a few cases it appears that children have been baptized on two different dates. These have not been starred.

-	1655 -	A base child (b. Feb -) - (unreadable)
-	1655 -	John s (unreadable)
-	1655 -	Mary d (unreadable)
