

HIGH LITTLETON SCHOOL ADMISSION REGISTER 1927-1954 & INDEX

THE COUNTY ADMISSION REGISTER

Expressly designed to meet the Code requirements; also containing Particulars of Teaching Staff.

HIGH LITTLETON C. E. SCHOOL

Official School No. 194

Date when issued to Head Teacher 20/4/1927

**Extract from Code Regulations as to School Records.**

2. Every school or department must have :-  
(a) a register of admission and withdrawal;  
(b) attendance registers; and  
(c) a register of summaries.

*General Rules for the use of Registers.*

3. The names of the school, of the department, and, in the case of attendance registers, of the class, must be distinctly written on the cover of each register; and on the title page there must be the signature of the correspondent and the date on which the register was issued to the teacher.

4. The pages of all registers must be numbered consecutively, no leaf must be inserted in or withdrawn from any register, and no blank spaces should be left between the entries.

5. Entries must be original and not copies, and must be made in ink without erasure or insertion. If it is necessary to make any correction this should be done in such a manner that the original entry and the alteration made are both clear on the face of the record.

6. Registers should be kept for ten years after they have been filled. The Head Teacher of a school or department is held responsible for the proper keeping and preservation of the records of the school or department, and should not delegate to a subordinate any part of this work except the keeping of attendance registers. Pupil-teachers of the first year may not be employed in registration; other pupil-teachers may register the attendances of their own classes.

*Special Rules for Admission Register.*

7. An entry should be made in the admission register for each scholar on the first day on which he attends the school or department. No name should be removed while the child is under the legal obligation to attend school, unless, either (a) it has been ascertained that he or she is dead, is attending another school, or has left the neighbourhood, or (b) the School Medical Officer has certified that in his opinion there is no likelihood of the child being in a fit state of health to attend school, before becoming legally exempt from the obligation of school attendance. If no information is obtainable the name may be removed after a continuous absence of four weeks.

8. Successive numbers must be allotted to the scholars on their admission so that each may have his own number which he should retain throughout his career in the school or department. This number will then serve to identify him. When any scholar whose name has been removed from the register is readmitted, a new entry must be made, but the scholar should resume his old number, and cross reference should be made to the entries.

9. This register must show distinctly for each scholar who has actually been present in the school or department:
- (a) his number on the register.
  - (b) the date of his admission (and readmission) - day, month, and year.
  - (c) his name in full.
  - (d) the name and address of his parent or guardian.
  - (e) whether exemption from religious instruction, or from attendance at the school during the time of religious instruction where the byelaws permit this, is claimed on his behalf.
  - (f) the exact date - day, month, and year of his birth.
  - (g) the last school he attended before entering this school. If this is his first school, the word "none" should be entered in this column.
  - (h) if he has left, the date of his last attendance at this school and the cause of his leaving.

10. This register should have an alphabetic index.

				Evacuee													
Nos. 2696 to 2703 are bracketed together and marked "L.C.C. Evac. Group, Church Hall (for prev. schools and for home addresses see back cover)".														Stuck on the back cover of the Register is a list of evacuees and their personal details, which, in some cases, differ slightly from the details copied into the Register. In this transcription the more accurate information has been included.
